

EMILY BATUBAJA

Data & Business Intelligence Professional

+264 81 287 3988 | emilywangah@gmail.com | linkedin.com/in/emily-batubaja-a57b942b | github.com/EmilyWangah | Windhoek, Namibia

PROFESSIONAL SUMMARY

Data and Business Intelligence professional with hands-on experience across aviation, road safety, and enterprise systems. Skilled in Power BI, SQL, Python, Streamlit, data validation, and reporting automation. Currently completing a Master of Data Science at NUST, with certifications in Big Data Technologies, Cybersecurity (Cisco), Large Language Models (Vilnius University), and Introduction to Python (University of Johannesburg). Experienced in translating messy operational data into dashboards, automated reports, and practical tools that teams use daily.

PROFESSIONAL EXPERIENCE

ATS Data / Statistics Analyst Intern

Namibia Civil Aviation Authority (NCAA) | April 2026 - Present

- Capture, validate and maintain high-volume aviation operational datasets ensuring data accuracy and integrity
- Generate daily, weekly, and monthly statistical reports to support operational and strategic decision-making
- Analyse flight movement data to identify trends, inconsistencies, anomalies, and operational patterns across Eros, Hosea Kutako, and Walvis Bay airports
- Built a 9-page Power BI dashboard with collapsible navigation and automated PDF export for Ministry of Works and Transport reporting
- Support data governance, auditing, compliance, and reporting processes
- Collaborate with operational teams to resolve data discrepancies and improve reporting accuracy

Data Science Intern

National Road Safety Council (NRSC) | October 2025 - March 2026

- Analysed road safety and crash datasets to identify trends, high-risk areas, and reporting insights
- Cleaned, transformed, and standardised datasets to improve data consistency and reporting quality
- Assisted in preparing analytical reports and visualisations to support policy and operational decision-making
- Conducted statistical analysis and data interpretation for road safety initiatives
- Supported data-driven reporting and research activities

School Secretary

WildKids Academy Private School, Katima Mulilo | February 2024 - February 2025

- Managed all administrative operations: student records, scheduling, correspondence, and school communications
- Resolved technical issues across school systems, enabling staff to remain focused on teaching
- Demonstrated strong organisational skills, attention to detail, and reliability with minimal supervision

Business Applications Analyst Intern

Roads Authority | August 2022 - November 2022

- Supported Finance and Operations ERP system (Microsoft Dynamics 365): user support, troubleshooting, system configuration
- Assisted with data capturing, process mapping, and user acceptance testing (UAT) for new ERP rollout
- Configured and set up end users; data-captured tariff variables on the live ERP system
- Used data modelling techniques to identify operational efficiency improvements
- Ran workshops and provided technical support for staff affected by new systems and processes

EDUCATION

Master of Data Science (In Progress, Expected 2027)

NUST - NQF 9

BSc Honours in Business Information Systems

IUM - NQF 8, 2024

CERTIFICATIONS

Certificate in Big Data Technologies (NQF 7)	NUST, 2025
Introduction to Large Language Models	Vilniaus University (Online) - Completed, cert pending
Introduction to Python	University of Johannesburg (Online) - Completed, cert pending
Data Analytics and SQL	hub4africa.bayern, 2025
Introduction to Cybersecurity	Cisco (Online)
Introduction to Technical Support	IBM (Online)
Web Development	SheCodes

TECHNICAL SKILLS

Analysis and BI	Power BI, Advanced Excel, SQL, Statistical Reporting, DAX, Data Visualisation
Programming	Python (pandas, numpy), Streamlit, Plotly, Git/GitHub
Data Infrastructure	Hadoop, Hive, Linux, Data Warehousing Concepts, ETL
Enterprise Systems	Microsoft Dynamics 365 ERP, UAT, Process Mapping, Data Governance
Web Development	HTML, CSS, JavaScript (vanilla), REST APIs, Netlify
AI and ML	Large Language Models, Machine Learning fundamentals, Prompt Engineering
